

# **BELLEAYRE MOUNTAIN SNOWSPORTS SCHOOL**

## **CERTIFICATION PLAN FOR PSIA *LEVEL I***

This certification plan has been developed specifically for those instructors planning to attend a PSIA-E Level I certification event. Using these guidelines, attending ski school clinics and getting checked off by a trainer is only one part of the process to becoming certified at this level.

Attaining PSIA certification is a personal goal. It is up to each instructor to:

- ❖ Read all manuals and literature that may be needed at this level.
- ❖ Attend training clinics.
- ❖ Attend study group sessions.
- ❖ Search and seek answers to exam questions and skiing movements that are unclear.

This Plan should be used as a guide to help prepare you for your Level I exam. In the first part of the plan, you should practice the various skiing tasks. Many of these tasks will be worked on in your morning clinics. However, you should also practice them on your own.

In the second part, Teaching and Professional Knowledge, most training will come while in your certification clinic. At different times instructors will lead a clinic with an appropriate skiing focus. Trainers will check off exam candidates each time they perform or complete one of the requirements.

**IT IS COMPLETELY UP TO THE EXAM CANDIDATES TO WORK ON PREPARING THEMSELVES FOR THIS LEVEL OF CERTIFICATION. TRAINERS ARE NOT RESPONSIBLE TO GET YOU TO PASS YOUR EXAM. SATISFACTORY COMPLETION OF THESE GUIDELINES DOES NOT GUARANTEE A PASS AT YOUR EXAM.**
